

BUAD 4900 Weekly Lab Log

Weekly Report and Video Reflection Log

Spring 2026

How to use this log. This is one of three workbooks for the course. Career competencies, resume, LinkedIn, and relocation planning are in the Career Development Workbook, and interview practice materials are in the Interview Prep Workbook. The two pages here are the recurring, week to week ones, meant to be used every single week rather than tied to a specific milestone. Each page is a reusable master template. Since this is a fillable PDF, filling a page in directly will overwrite what was there before, so save a new copy each week, for example *Week4_LabReport.pdf*, and keep this file blank as your master.

AI use policy. Generative AI is fine to use here if it helps polish a weekly report, it is never required for anything in this log.

1 Weekly Lab Report

Use a fresh copy of this page every week. Bring it to the Day 1 job meeting.

Worked example

EXAMPLE — weak: *"Worked on the project this week."*

strong: *"Implemented the search filter for the inventory app, fixed two bugs a teammate flagged Monday, and paired with Jordan for an hour on the login issue."*

Week #

Date

Hours logged this week (Day 1 time counts toward your five required hours; Day 2 is classwork and does not)

What I accomplished this week

Blockers or challenges

Plan for next week

Lab equipment or resource notes

2 Video and Resource Reflection Log

Use a fresh copy of this page for each video or article assigned before a Day 2 session.

Week

Resource watched or read

One thing the candidate did well

One thing I would do differently

One question this raised for me (optional)
